“ Dear family of Bev, I worked with Bev at Home Medical Resources a few years back. She was always professional, and personal in her work. Her smile and quiet demeanor amid the busy sometimes chaotic work environment is what I remember. She kept the place calm and was excellent in her work. I saw her when I arrived in the morning. I knew it would be a good day because Bev was working. I thought of her many many times after I no longer worked there, I often wished I had spent time outside of work on a personal, friendship relationship with Bev. She was my kind of woman. I send my heartfelt sympathy to you, her dear family. I admired her very much. May you be comforted by God's love. Bev is remembered and missed. Linda
