“ Well Morrice,our 40 year journey has come full circle and now you have entered your eternal life to be with God. I am blessed and grateful to have our kids and grandkids and thankful to have shared them with you. You take care of our son Tom in heaven and hug him from me as I will take care of those left here with me. We were sad to see you leave us so suddenly,but happy you are now pain free.We know how hard you fought the fight to stay and make more memories,but know we are at peace and finally after all these months of sickness and pain so are you.Rest in peace Morrice..And as our little Gracie would say"Is Papa sick today?",we can now say "No,Papa is in heaven now and an angel watching over us".
